Hinge 

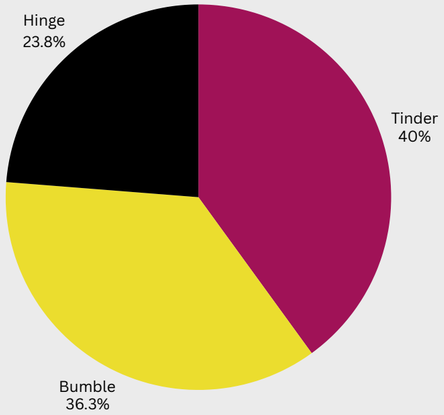

Product Teardown: ‘New User Onboarding’

By Shruti Gaikwad

Overview

Hinge is a dating app that works on the fundamental of ‘designed to be deleted’. Hinge encourages more meaningful conversations through profile prompts, photos, and answers to questions that reveal more about the person’s personality, values, and preferences.

Market Share

- India has over 82 million dating app users
- The number of users has quadrupled in five years, making India the fastest-growing market for online dating globally.
- India is projected to surpass the U.S. by 2027 in terms of user base for dating services.

Business Model

Hinge+:

- **Cost**: Varies by subscription length and location. For example, a one-month subscription costs $29.99, a three-month subscription is $59.99 etc.
- **Features**:
  - Unlimited likes.
  - Ability to see who likes you.
  - Advanced preference filters.

HingeX:

- **Cost**: Approximately $49.99 per month.
- **Features (**The Everygirl):
  - All the benefits of Hinge+.
  - Enhanced match recommendations.
  - Higher visibility and priority in matching.
  - Boosted profiles and likes for increased exposure.

Key Metrics

Metric Name	Metric	Explanation
North Star Metric	Number of users who start a meaningful conversation within the first 7 days	This metric reflects Hinge's mission: *"Designed to be deleted."* It prioritizes real user connection over swipes or time spent on the app.
L1 Metric	Profile completion rate	More complete profiles = higher quality matches & conversations.
L2 Metric	Time to complete onboarding	If it's too long/confusing, drop-off increases.
