Richa | 19 | Arts Student | Delhi

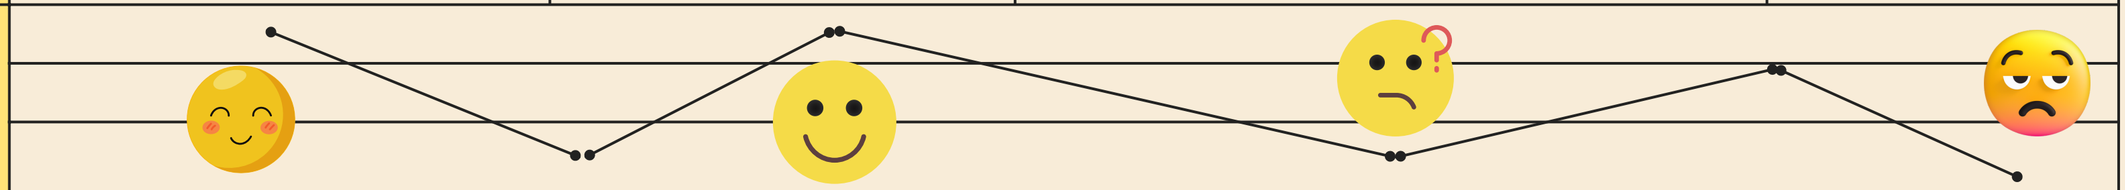

Needs

- Wants to try trending clothes with good quality and reviews
- Picky shopper and needs lot of reassurance to buy something
- Wants to make a creator career on myntra

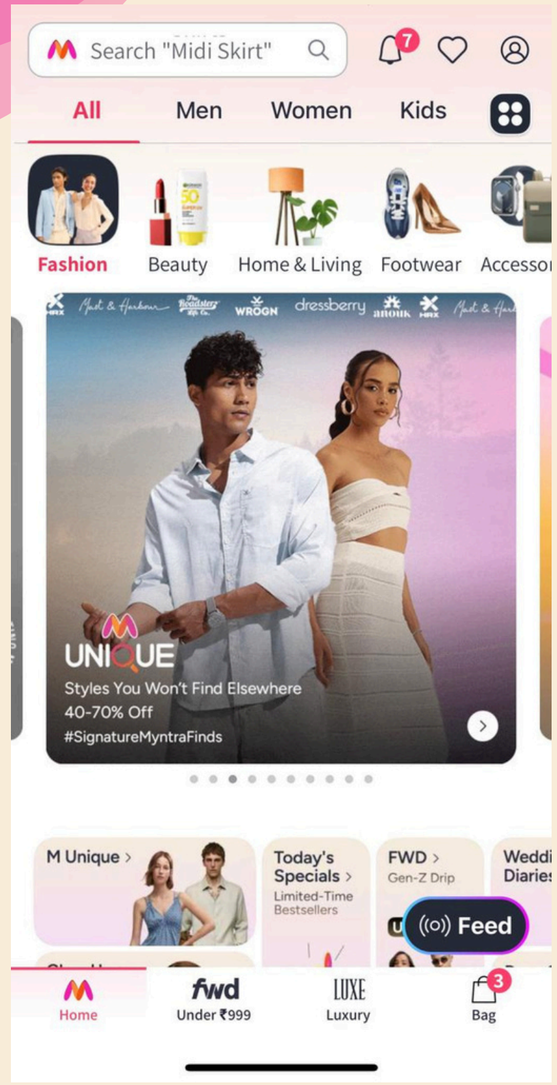

Pain Points

- Does not find reviews for less frequently bought clothes.
- Finds it hard to post reviews and become a creator on myntra

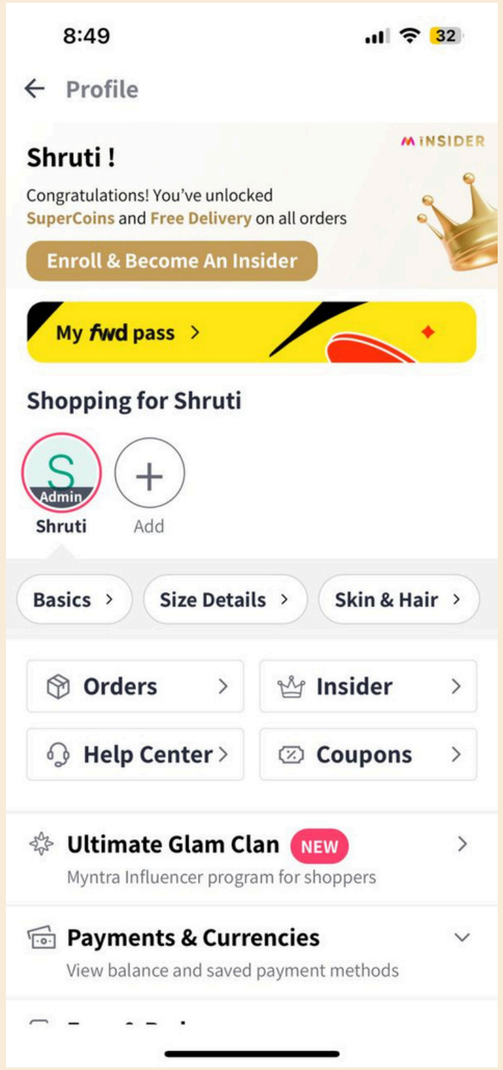

User Journey Map

Stages	Considerations	Search	Review	Additional
User Goals	• Got to know from friend • Wants to leave a review for product bought	• To write review for a product	Follows a simple process to add a review	• To add more details • Rate previous products
Actions	Opens the app	• Goes to user profile • Clicks on the product	• Gives ratings to product and delivery person • Answers few single choice questions • Writes a review	• Adds pictures • Selects other products and adds a review
Pain Points	NA	• Not very intuitive and easy to locate • In first view can only see the rating option	• Users miss tell us more option and hence detailed reviews for more products are not seen • No provision to add pictures directly	• Review approval takes an eternity. • Vague questions
Emotions				
Opportunities	NA	• Change feature location • Send in app reminders	• Put CTA button to write a detailed review next to ratings option • Camera icon next to it	• Use AI to clear spam photos • Relevant survey

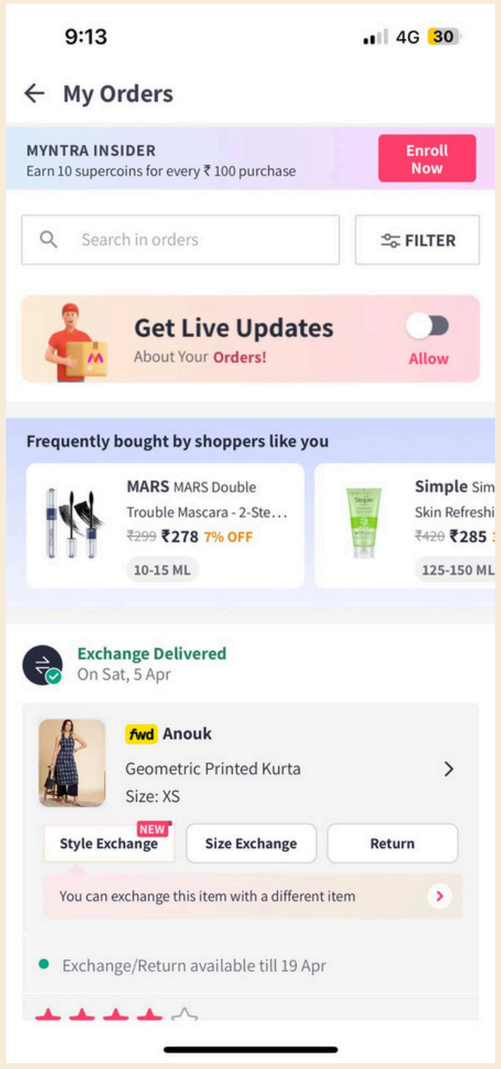

User Journey

11) Rate the fit and features

12) Either ‘Skip’ or ‘Submit’ this part to proceed

13) Choose unreviewed past products and rate

14) Review gets moderated before being posted

Feedback

Myntra's UX and review system could benefit from improved organization, as product reviews can sometimes be overwhelming and difficult to navigate, making it harder for users to find relevant feedback quickly.

Feature Review

Element	Current State	Improvement Idea
Star Ratings	✅ Simple	Add sub-attributes
Written Review	⚠ Unstructured	Use guided prompts
Photo Uploads	✅ Present	Create "Photo-Only" filter
Timing of Prompt	✅ Post-delivery	Add push/email nudge with reward
UX Experience	⚠ Basic	Save drafts, show review reach

Areas of Improvement

- Segmented Ratings: Introduce attributes for fit, comfort, material.
- Reward the Reviewer: Points, badges, or early access could boost submissions.
- Highlight Verified Fit: Tag reviews from users of the same size/body type.
- Improve Filters: Let users view only 4-5 star reviews or just photo-based ones.
- Loop Review Impact: Show if someone's review helped influence a sale.
- Drafts: Save drafts incase users loose connection.
- Pop-up Reminders

Key Metrics

- Average Rating: The overall average rating of products (e.g., 4.4/5) across the platform, indicating customer satisfaction

- Review Volume: The number of reviews submitted by users for products, reflecting active customer engagement.

- Review Sentiment: The ratio of positive, neutral, and negative reviews, helping to gauge customer sentiment and satisfaction trends.

- Review Conversion Rate: The percentage of customers who leave a review after making a purchase, showing how effectively Myntra encourages feedback from its users.
